

We are looking for talented 'Voice Over Artists', who are articulate, eLearning content presenters who also have instructional design knowledge and skills to create custom-made educational content that have interactive components, learning activities, scenarios, and simulations.

The goal is to facilitate learners in acquiring knowledge, skills, and competencies in an effective and appealing manner. A successful candidate/s is a highly motivated individual/s who works comfortably and independently in a fast-paced environment. You have a demonstrated ability to manage priorities and projects and the right mix of organizational and communication skills.

Knowledge and Skills:

- Must have good voice quality & voice modulation capabilities
- Language proficiency in English, Hindi
- A professional home studio set up for recording & editing audio is desirable
- Knowledge of instructional design concepts and principles
- Strong attention to detail
- Excellent time-management skills, and ability to work independently and collaboratively
- Ability to write effective copy, instructional text, audio scripts/video scripts
- Clearly communicate updates, risks, and issues to stakeholders and senior management.

Role: Voice artist / RJ
